Thoughts from previous students

一般日本語コース General Course

The teachers were very lively and made the classes a lot of fun. The course textbook was very contextual and emphasized natural speaking, which was very helpful for daily practice. The online support was also excellent, and I enjoyed the chance to speak with my classmates in the breakout sessions, which were managed well. The teachers were all great! I also appreciated that the content was university focused. **[Level 1]**

The courses are well organized, have rich contents and cover many aspects (listening, speaking and reading). **[Level pre3]**

先生方の文法などの説明はよかったですし、
見たビデオやいろいろな活動なども
よかったです。 **[Level 4]**

I have learnt so much about the society of Japan and the world. I like the teaching style of my teachers. It is so interesting to learn the Japanese with few classmates. **[Level 5]**

The teaching quality, the directive on “remembering” key points of a kanji, its writing and reading, have made it very easy to learn and remember. In everyday’s life it’s a life-saver. **[Kanji II]**

表現の細かい違いをじっくりと教えていただきました。練習の時間もちゃんともらえるので、自然に話し方を身につけることができました。 **[中級・話すための日本語]**

集中日本語コース Intensive Japanese Course

When I first came here I could barely speak and was not happy at all. After I started taking this course, I became more familiar with the Japanese language and started to be able to speak with Japanese people. My advisor and *senpais*, also officers of my department office, were all happy to speak with me and encourage me to continue studying. Now I feel a lot better and found out that all of this is because of skills I obtained from this class, so thank you very much, *senseis!* :) **[Elementary]**

In my personal opinion, it is just an excellent package that covers all the language skills in a balance manner. From the very beginning until the end of the topics, there are a lot of topics which are related each other (some topics are prerequisites for the next topics in my personal opinion), and the flow between them are very smooth and easy to be understood. All the contents are also very applicable in daily life. **[Lower-Intermediate]**

短期日本語コース Short-term Japanese Course

I liked that it is very concentrated-- most useful info and enough to get started. I liked having it every day, but only one week so it doesn't disrupt other work. I got exactly the basic introduction I was looking for, and the short time to practice and get questions answered that I have been curious about for a long time.

I can take part in very basic conversations in which Japanese language is required, which is quite helpful when going out to eat or when stranded without a digital translator.

日本語スポット講座 Special Themed Seminar

以前は、漢字の読み方をいつも直感的に読んでいたので、間違いが多かったです。このコースを受けて、今後このような読み間違いがなくなると思います。【中国語話者のための「読める！日本語の漢字」 中上級】

It helped to remove the confusion about different grammar forms. Earlier forms were studied separately (weeks apart). But now since all were studied in a short time, the relation is clear. I have a better idea about different forms now. 【動詞の活用 Conjugating Verbs】

I really learned a lot in a short time frame and was able to develop in various areas of reading, listening, and speaking. I thought the choice of activities were very interesting and engaging.

【話そう・聞こう Speak and Listen Well】

- Course contents are well organized and very much compatible to the level of Japanese learning. In addition, the e-learning site is particularly very helpful.
- Very engaging and friendly teachers, structure of class content was very good, and materials were helpful for learning on my own.
- The concepts were explained better than in other courses.
- コースが多いので、自分が勉強したいクラスを選択することができます。
